Axisara Books

Enterprise pricing sheet
Prices in US dollars · 15 November 2026

Enterprise plan

Online accounting for groups and larger organisations: every Axisara Books module, no set limit on companies or users, the highest allowances, and support arranged around you. Enterprise is priced by quote and invoiced by Axisara Consulting.

from **$119** a month

Billed monthly or annually, in advance. Annual billing includes 2 months free. The quote depends on the allowances, the number of companies and users, and the support you need.

What is included

Allowance	Enterprise
Companies	No set limit
Licensed users	No set limit
Transaction lines a month	300,000 (more by agreement)
Document storage	500 GB
Updates from other users	every 15 seconds
Support	Custom arrangements, including priority support and onboarding
Modules	All: invoicing and collections, bills and payments, the general ledger, sales tax and withholding, financial statements, fixed assets, inventory, employees and payroll, documents, memos and reminders, imports, backups; Excel and PDF export on every page; audit log

Optional add-ons (per month)

Add-on	Price
Additional 10,000 transaction lines a month	$7
Additional 10 GB document storage	$3
Employee portal: 10,000 more refreshes a month (coming soon)	$3

Terms in brief

- **Payment:** invoiced by Axisara Consulting, paid by bank transfer or another method we agree. Any bank fees and charges are paid by the customer.
- **No long-term commitment:** stop at the end of any billing period.
- **Refunds:** invoiced payments are not refundable; we may refund at our discretion on request. See axisarabooks.com/refunds.
- **Your data:** you own it and can export it at any time (Excel, PDF and full backups). After a subscription ends the books are read-only and the data is kept for 180 days.
- **Security:** hosted on Cloudflare over HTTPS, each company isolated, roles checked on the server, an append-only history, encrypted backups every night.
- Full terms: axisarabooks.com/terms · Privacy: axisarabooks.com/privacy
